***Save 10% by paying annually.**

MHA Assigned User Names and Passwords

The MHA will assign a computer generated user name and password for all of your employees. Simply give us a list of the names of each person you wish to sign up and we will send you the information after entering it into the system. If you have multiple stores, be sure to group all names by store location.

Your staff will then go to www.midwesthardware.com and login as a Member with their assigned user name and password. They should click on On-Line Campus and will then be taken directly to the Campus site, pre-registered, and ready to start taking classes.

Custom User Names and Passwords assigned by YOU are available.

(Use this option if you want to use the same login information as used on other websites.)

IF you would like to assign your staff a password of your choosing, go to the MHA website, www.midwesthardware.com and login with your administrator's login information. (Multi-store owners must select store to work on.) Go to [Administrator Services], Add/Modify Users, and enter the information requested. Be sure to give your staff the desired site accessibility including the On-Line Campus. Notify Roger at the MHA when you have finished, and he will complete the Campus Registration process, and let you know as soon as the site is ready to use.

Your staff will then go to www.midwesthardware.com and login as a Member with their assigned user name and password. They should click on On-Line Campus and will then be taken directly to the Campus site, pre-registered, and ready to start taking classes.
