

# Forklift Safety Training Program

**NOTE: OSHA requires all operators to be certified on site, and re-certified every three years thereafter, or after an accident.**

Teach your forklift operators the essential safety information they need for responsible forklift operation with one of the most professional and effective kits you can use to train your operators. The training kit will help your forklift operators develop safety-consciousness, avoid workplace accidents and damage/loss, run specialized forklifts such as high lifts and walk-along units and deal with outdoor operations.

## Each kit contains:

- 21-minute VHS Training Video and Course Preparation Guide
- Instructor's Guide and Training Log
- 10 Employee Handbooks
- 10 Certificates each of Classroom and Operational Training
- 10 Pre-Operational Inspection Daily Checklists and 10 Wallet Cards
- "Caution! Watch for Work Vehicles" Sign
- "Caution! Carbon Monoxide May Be Present" Sign
- 2 Awareness Posters

Training your staff on site saves time and money.

- The complete kit is Member Priced at \$279.00 plus S/H and tax (where applicable).**  
(Non Member price is \$429.00 + +)
- Additional Student Work Books are Member priced at \$15.00 each plus S/H and tax.  
(Non Member \$20.00 + +)
- Wallet cards are pack of 10 for \$5.00 plus S/H and tax.  
(Non Member \$10.00 + +)
